PROFESSIONAL SUMMARY

Full-stack Laravel Developer with 3+ years of experience building e-commerce, CRM, and healthcare web applications using Laravel, CodeIgniter, REST APIs, and MySQL. Skilled in end-to-end feature ownership and managing multiple client projects independently, with flexibility to relocate for onsite roles.

EXPERIENCE

Web Developer (Full Time) — Bigpage *Dec 2025 – Present | Barasat, WB*

- Developed and maintained a range of web applications including E-commerce platforms, CRM / Donor & Member Management systems, Internship portals, and a Healthcare Directory platform.
- Designed database and integrated REST APIs and public JSON APIs, payment gateways (Cashfree, Razorpay, PayU) and implemented PDF generation using mPDF for invoices, receipts, and reports in CSV.
- Handled deployment and server configuration via cPanel and VPS setups for Laravel applications.
- Built Android APKs from web content using WebView-based templatized Android Studio projects for client mobile access.

● Key Projects: E-commerce — Zuppllly (https://zuppllly.in) and Merecloset (https://merecloset.com/).

● Crowdfunding Platform — The Solvian Foundation (https://thesolvianfoundation.org/).

PHP Developer — Zoblik International (earlier RecruitNxt Technologies) *Nov 2022 – Nov 2025 | Remote*

- Developed a feature-rich Job Portal application using CodeIgniter, including RESTful APIs, resume generation modules, a referral system, and a coin-based rewards system for purchasing premium resumes. Contributed to the development of an LMS platform using Laravel, implementing and enhancing core application features. Improved overall application performance, security, and reliability through code optimization and best development practices.

● Key Project: Job Portal — Xyntara (https://xyntara.in/job/recruiter/auth/login).

Back Office Executive — Deeglory Solutions Pvt. Ltd. *Mar 2020 – Oct 2022*

Sales Officer — Bajaj Finance Limited *Jul 2019 – Feb 2020*

● Extra Project: News Portal — Real Bharat News, developed using React.js with API integration (https://realbharatnews.vercel.app/).

PROJECT HIGHLIGHTS

SKILLS

Backend Frameworks & Languages: PHP (core, self-taught), Python (Basic), Laravel, CodeIgniter

Frontend: jQuery, Bootstrap, Ajax, HTML/CSS, React.js (Basic)
